Do You Know About... Physical Activity in Cleveland County

Physical Activity
World Health Organization defines physical activity as "any bodily movement produced by skeletal muscles that requires energy expenditure – including activities undertaken while working, playing, carrying out household chores, traveling, and engaging in recreational pursuits. The term "physical activity" should not be confused with "exercise", which is a subcategory of physical activity that is planned, structured, repetitive, and aims to improve or maintain one or more components of physical fitness. Beyond exercise, any other physical activity that is done during leisure time, for transport to get to and from places, or as part of a person's work, has a health benefit" (WHO).

According to the 2020 County Health Rankings, **29% of adults in Cleveland County** identify as having little to no physical activity during a week

**Regular physical activity is associated with reduced risk of:**
- Cardiovascular diseases, such as heart disease and stroke
- Hypertension
- Type 2 diabetes
- Certain cancers, including bladder, breast and colon cancer
- Dementia
- Anxiety and depression

**Adults need:**
**150 minutes** of heart pumping physical activity a week.

**Kids need:**
**60 minutes** of physical activity a day.

**We all need:**
**Balance.** Find your healthy eating style and maintain it for a lifetime.

**2019 Community Health Assessment:**
How often do you engage in physical activity at least 30 minutes?
- 1-2 days: 34.50%
- 3-4 days: 26.32%
- 5-6 days: 9.21%
- Never: 17.11%
- Unsure: 6.29%
